

THE ODYSSEY SCHOOL OF DENVER SPRING AUCTION

FALL 2019

Dear Friend,

The Odyssey School of Denver is hosting its annual fundraising auction in March 2020, and we are hoping to gain your much needed support! We have many advertising and marketing opportunities available in return for your financial support. Partnering with our school not only provides one of Denver's top public schools the ability to meet financial obligations, it also allows your brand and logo to capture a large audience and increase revenue for your small business or corporation.

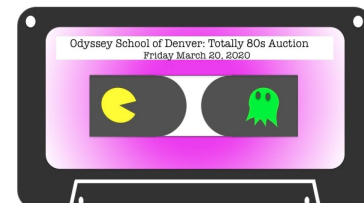

We are offering companies several different advertising levels this year. Your business's logo could be included in all correspondence sent to our families as well as on our social media pages from now until Spring of 2020. We also offer a banner option to place on our fence. Our school is located on the corner of Montview and Monaco Boulevards, a corner with significant daily traffic, which will be seen by many people daily. Our tiered sponsorship options creates the flexibility to allow you to choose how much exposure you want your company to have.

The Odyssey School of Denver is an expeditionary learning school (EL Education) located in the heart of Park Hill, but our student population choices into the school and thus attend from all over the Denver Metro Area. Our curriculum enables students from K-8th grade the benefit to learn through real-world experience and fieldwork. In addition, our adventure program is a key component to developing teamwork, active learning, character growth, and critical thinking. Our school prioritizes enrollment to ensure that at least 33 percent qualify for the free and reduced lunch.

In order to fully serve our students and staff, we need to raise funds, totalling \$46,000, above and beyond our state allotments. These funds are vital for continuing our para program, ensuring equitable and competitive teacher pay, funding our highly regarded adventure program and meeting other school needs. Your partnership with Odyssey is tax deductible as the school is a 501(c)(3) non-profit organization.

Thank you for your time and consideration.
